DETAILED ACTION

Claims 1-7 are pending in the instant application.

Election/Restriction

Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group 1, Claims 1-7, drawn to cells comprising a mutation in a gene comprising the nucleotide sequence set forth in SEQ ID NO: 1, classified in class 435, subclass 354.

Groups 2-890, Claims 1-7, drawn to cells comprising a mutation in a gene comprising the nucleotide sequence set forth in SEQ ID NO: 2-890, respectively, classified in class 435, subclass 354.

Group 891, Claims 1-7, drawn to cells comprising a mutation in a gene comprising the nucleotide sequence set forth in SEQ ID NO: 891, classified in class 435, subclass 354.

The inventions are distinct, each from the other because of the following reasons:

Polynucleotides of different nucleotide sequence are structurally distinct chemical compounds. Such polynucleotides and compositions comprising them are thus deemed to normally constitute independent and distinct inventions within the meaning of 35 U.S.C. 121 and therefore subject to a restriction requirement pursuant to 35 U.S.C. 121 and 37 CFR 1.141 et seq. The polynucleotides are not obvious, one over the other. Accordingly, only one independent and distinct nucleotide sequence (or compositions comprising the nucleotide sequence) will be examined in a single application.

Art Unit: 1632

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their recognized divergent subject matter and because the searches required for the separate inventions are not coextensive, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
